

## AFFORDING PRESENTATION

Economic diversity is an important goal at Presentation. Our ability to attract students from a broad array of economic backgrounds helps us provide a richer educational and social experience for our school community.

30% of our current families pay tuition below the top of the tuition scale, making a Presentation education accessible to a wide range of economic circumstances. Tuition Assistance is available for families who apply and have demonstrated qualification by fully completing the tuition assistance application process via FACTS.

## INCLUSIVE TUITION MODEL

Presentation's inclusive tuition model ensures all families that virtually all supplemental costs are accounted for in the price of tuition, scholastic and registration fees. Including these costs up-front allows families to plan effectively and avoid incurring additional fees after enrollment.

**The inclusive tuition model includes the following:** All Scholastic Materials, Student's 1-1 Technology Program, All K-8 Day Trips, Extensive Specialist class resources, Community Events and more!

The Middle School Fee acknowledges the significant increase in costs to run a community-focused and rigorous middle school program differentiated from other schools around. The Middle School Fee offsets additional costs including the Middle School Sports League fees, Middle School Leadership Program as well as increased performing and visual arts expenses.

## TUITION RATES

The Presentation School's tuition and fees are set annually by the Board of Trustees. The Board of Trustees also allocates significant funds annually to support families who apply for and qualify for tuition assistance.

The Presentation School 2024-2025 Tuition and Fees	
<i>Description</i>	<i>Fee</i>
Annual Top Level Tuition Fees	\$20,150
Registration & Scholastic Fees	\$1,000
